

Click on one of the four Modules. File download box will appear (see below).

Click on either **open** or **save** to view the slides. Clicking on **save** allows you to save the PowerPoint slides to your personal computer.

For PC users, push button **F5** on keyboard to view the slides as a slide show

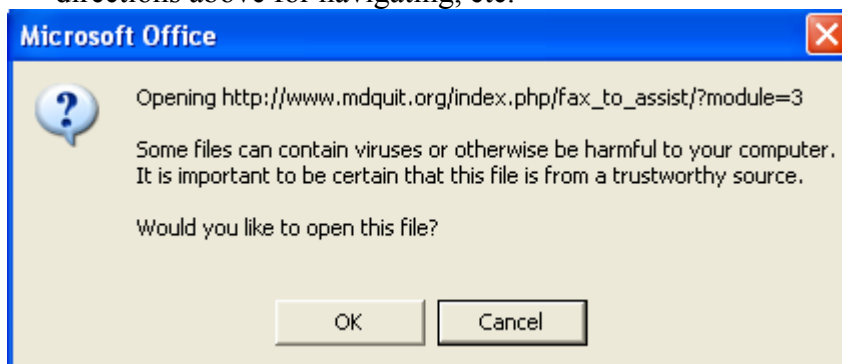

For PC and MAC users, click on slide show pull-down → view show

To navigate, use one of the following methods:

1. Use arrow keys on key board to move up ↑ or down ↓
2. Use Page Up or Page Down buttons
3. Use the arrows in lower-left hand corner on the PowerPoint slide to move back ← to a previous slide or forward → to the next slide

To continue to subsequent modules, use of the following methods:

1. One the last page of the first 3 modules, each of the Modules will be underlined (for example: [Module 2](#) on the last page of Module 1). Click on the underlined Module and the following dialogue box will appear. Click ok to open and follow directions above for navigating, etc.

2. The individual modules can also be opened from the main Fax to Assist page
